This house style guide is intended for use principally by CAA’s copyeditors and proofreaders, who shape journal and web texts to match the organization’s academic style. However, CAA provides this guide online as a resource for others interested in accessing the organization’s rules for formatting titles of works, exhibitions, captions, notes, and the like.

I. Reminders for Copyeditors and Proofreaders

CAA publishes four journals: The Art Bulletin (AB), Art Journal (AJ), Art Journal Open (AJO), and caa.reviews. The following style guide applies to all four journals, and all CAA materials, except where noted. This guide aims to uphold consistency among the journals, as well as closer adherence to the style laid out in The Chicago Manual of Style 17th edition (CMS) and the spellings in Merriam-Webster’s Collegiate Dictionary 11th edition (M-W). Please contact the Managing Editor if you have any questions.

- Please review the below style sheet, word list, and caption and note guides for preferred rules and spellings, commonly used terms, and CAA’s caption and note requirements.

- Please fact-check spellings and capitalizations of proper names, artworks, and places, as well as major historical dates.

- Please check spellings of names in captions and foot/endnotes against how they are spelled in the body text and make consistent. Same for titles of artworks and texts.

- At the first mention of a person, please include their full name. Subsequent references should use their surname only (e.g., Marcel Duchamp at first mention, then Duchamp).

- Please close up prefixes per Chicago style (see CMS 7.89).

- Please use evenly spaced periods for ellipses . . . and not the automatically generated Word symbol. Please see CMS 13.53 for using ellipses with periods.

- No need for ellipses at the beginning or end of quoted matter (CMS 13.52), unless the sentence purposely trails off.

- The initial letter of a quote may be changed to a capital or lowercase letter to suit the context; no need to use brackets to indicate the change (CMS 13.7).

- Please cite interviews according to CMS 14.123.

- “Emphasis added.” indicates author’s italicization in quoted matter. For translations / transliteration, include the notice “Unless otherwise indicated, translations are mine.” at top of notes.

- Access dates—no need to include unless there is no publication date for the piece (CMS 14.12).
If an artwork’s or text’s title is best known in its original language, please retain the non-English title in both captions and body text. An English gloss may follow in parentheses at first mention. Per CMS 11.9, if the English translation has not been published (or is not well-known), the English should be capitalized sentence-style (see example 1 below) and appear neither in italics nor in quotation marks. A published/well-known translation, however, is capitalized headline-style (see example 2) and appears in italics or quotation marks depending on the type of work:

1. Leonardo Fioravanti’s *Compendio de i secreti rationali* (Compendium of rational secrets) became a best seller.
2. Proust’s *À la recherche du temps perdu* (*Remembrance of Things Past*) was the subject of her dissertation.

On the other hand, per CMS 11.10, “Titles that are widely known in their English translation could be cited in English first, with the original following in parentheses; in some cases, the original can be omitted entirely... As long as the documentation clarifies what has been published in English and what has not, translated titles standing in for the original may be capitalized headline-style and treated like other English-language titles.” If the author is consistent in giving titles translated into English, go with their choice.

When a shortened citation is required (see CMS 14.29–33), include author last name, shortened title, and page number, *not just* the author’s last name and page number. Note, however, that CAA still uses “ibid” to refer to a single work cited in the note immediately preceding.

Shortened titles of non-English works should be non-English, not shortened from an English gloss (CMS 14.33).

When copyediting, please make sure that beside each figure number, either “S,” “M,” or “L” (a size reference for the designer) is given; if not, please query. For *Art Journal*, please place the figure number in parentheses outside of punctuation (since it is for the designer’s reference only, not part of the text).

In running text, parentheses may appear back to back (with a space in between) if they enclose entirely unrelated material; sometimes, however, such material can be enclosed in a single set of parentheses, usually separated by a semicolon (CMS 6.98).

When proofreading, please be sure to fix bad breaks, particularly a word broken over a recto page. Please see CMS 14.18 on where lines should break within a URL.
II. CAA Style Sheet and Word List

CAA follows the styles set forth in *The Chicago Manual of Style*, 17th edition (CMS), with exceptions as noted below.

1. General Style Rules

Formatting:
• When copyediting, please ensure the Microsoft Word document you are working in has the following formatting: Times New Roman font, size twelve, double spaced. The document’s language should be set to English—US, especially in notes. Always use endnotes, not footnotes. Make sure to use smart quotes and apostrophes, and prime marks when needed for inches or feet. Ellipses should be evenly spaced and there should be one space between sentences, not two.

Inclusive Language:
• CAA accepts the singular use of third-person-plural pronouns (“they”/”them”/”their”/”themselves”) to refer to a person of unspecified gender. (Please do not use “he” universally, or “sh/e,” “his or her,” etc.)
  No one has to go if they don’t want to.
  “They” and its forms are also used when referring to a person who does not identify with a gender-specific pronoun.
• Please be mindful of inclusive language generally (“humankind” is used rather than “mankind,” and so on).

Punctuation:
• Where punctuation is optional, CAA prefers less punctuation rather than more (e.g., short introductory dependent prepositional phrase like “In 1968” does not need a comma after it)
• Words with prefixes generally should be closed up rather than hyphenated
• Hyphenate compound adjectives: nineteenth-century art
• Acronyms, where possible, take full caps, and do not take periods: BCE, CE, CV, US, USA, UK, BA, BFA, ID, CAA (but PhD)
• Plurals of acronyms take no apostrophe: PhDs, CVs
• Serial commas are used (black, white, and green—do not omit the comma after “white”)

• Serial semicolons are used when appropriate
• One word-space after a period, not two

Possessives:
For singular nouns, always use the full “apostrophe + s” form:
  - Henry James’s novel (not Henry James’ novel)
  - Moses’s beard in Michelangelo’s sculpture
  - ACLS’s program
  - Descartes’s philosophy

Plurals ending in “s” take just the apostrophe:
  - the three foundations’ decision to support CAA’s application
  - the scholars’ panel (when there is more than one scholar on that panel)

Capitalization:
CAA follows a “down” style:
• Lowercase words when possible, e.g., “the CAA journals” in run of text, not “the CAA Journals”
• Notwithstanding that, well-established art movements are capitalized (Baroque, not baroque; Impressionism, not impressionism)

• Job titles are lowercase whenever possible:
  - Joan Strasbaugh, CAA managing editor
  - Peter Lukehart, vice president for Publications

• Job titles are capitalized when the they are used qua title, in front of the person’s name:
  - President Jimmy Carter, but
  - Jimmy Carter, president of the United States

Names, Titles and Italics:
• Italics should be used for most titles of books, journals, artworks, artwork series titles (Goya’s Black paintings, Johns’s Targets), and exhibitions. Book series titles are not italicized.
  - For untitled artworks: no italics, unless further title element is supplied by the artist, in which case both are italicized: Untitled (Self-Portrait as a Dog)
  - Note that italicized titles within titles remain italic but take quotation marks (CMS 8.173, 14.94). Other words that would normally be italicized, such as the name of a species or ship, are set in roman or “reverse italics” within a title (CMS 14.95).

Roland McHugh, Annotations to “Finnegans Wake” (Baltimore: Johns Hopkins University Press, 1980).

- Titles of individual articles, poems, chapter headings, songs, CAA Annual Conference sessions, and papers appear in quote marks. As a rule, if a word is in the dictionary specified above, it should not be italicized. Many French and Latin words and abbreviations have entered the English language and do not need to be italicized.

- Italicize the word _Magazine_ in titles with the word “magazine” as a main part of the title (e.g., for _Bomb Magazine_ and the _Burlington Magazine_ but not for _Time, Cabinet_, and _New York_). If necessary, you can phrase it like this: “My article was published in _Cabinet_ magazine.”

- When a book is mentioned in running text or an author biography, please provide the publisher and year in parentheses after the title like so: (College Art Association, 2019). When the book or work is cited more in depth, however, please add an endnote or footnote and provide a full bibliographic citation (see the note style guide, section IV, below).

- Museums’ full names should be given at first mention, then may be abbreviated thereafter (e.g., the J. Paul Getty Museum, then the Getty).

- CAA prefers “words as words” to be in roman text / double quotes, not italicized.

Numbers:

- Spell out numbers 1–99, round numbers, and numbers as the first word in a sentence

(Exceptions: CAA _News_ backmatter, some marketing materials, and some conference publications use numerals consistently throughout to save space. In captions centuries are often styled with numerals to save space, e.g., 19th century.)

- Inclusive number and date ranges take an en-dash, not a hyphen

  - Use full years for birth and death dates (1923–1992)
  - Sunday, December 7, 1941, (year followed by comma if sentence continues), _not_ 7 December 1941
  - Do _not_ use ordinal numbers in dates (1st, 6th), except in cases like AJO, where the website’s post format mandates them
  - Spell out day and month names; avoid abbreviating them (Tuesday, _not_ Tues)
  - 1950s, the fifties (lowercase); _not_ the Fifties, _not_ the ’50s, _not_ 1950’s
  - mid-1960s (but early 1960s, late 1960s)

- Use this model for telephone numbers: 212-691-1051, ext. 220 (comma follows extension number if the sentence continues)
• When working in a manuscript, set fractions in text with a slash between the numerator and denominator: 1/2, 1/4, 3/4, 2 1/2 hours. (Designers will style these fractions as stacked and closed up when typesetting in layout: 3½ hours.)

• Never use superscript for ordinal numbers; instead, go with 1st, 2nd, etc.

• Numbers 1,000 and above take a comma (e.g., 2,514 or 17,392)

Captions:
• CAA includes full information in captions whenever possible, including photograph credits. As far as possible, CAA should use a standard format for captions in all print materials, whether artworks in the journals or images of CAA activities online. However, a distinction may be made between scholarly captions, journalistic captions, and captions in “commercial” uses (brochures, conference publications, etc.).

• **For styling full captions, please see the caption style guide (section III) below.**

• For location of artworks, museum name comes first, then city:
  
  Louvre, Paris
  Uffizi, Florence

• “The” is deleted from museum name in captions unless required in the credit line by a legal contract such as an image permission. (British Museum, London), (Museum of Modern Art, New York)

• Please style directional s following the guidelines in CMS 3.24, “Using Locators in Captions.”

Lists:
• In general, items in a bulleted or numbered list begin with a capital letter. No punctuation at end of items in a bulleted or numbered list, unless the list items are complete sentences.

Spell out:
• Contractions (except in quotes; use discretion for transcription of spoken language, e.g., interviews)

• Name of centuries (twentieth century); but in backmatter, captions, or other circumstances where space is an issue, OK to use numbers (20th century)

• Names of days of the week and months

• States and provinces: spell out in running text (Orlando, Florida, *not* Fla., *not* FL); use postal abbreviations in appropriate locations such as mailing addresses and notes
Abbreviations:
• Avoid abbreviations in run of text. Change etc. to “and so on” or similar; change e.g., to “for example”; change i.e., to “that is” or similar (except when they are in a parenthetical phrase).

Addresses:
• Spell out Avenue, Street, Boulevard, Road, etc. in running text: CAA’s office was once located on Seventh Avenue
• Spell out and capitalize numbered street names: Twenty-Fourth Street
• Spell out street names in a list:
  Metropolitan Museum of Art
  1000 Fifth Avenue at Eighty-Second Street
  New York, NY 10028
• Abbreviations are acceptable when listing a mailing address in running text, if used consistently (usually after a colon):
  Send your application to: Dedalus Foundation, 555 West 57th St., Ste. 1222,
  New York, NY 10019.
2. Word List

For spelling, CAA follows the first spelling given in *Merriam-Webster’s Collegiate Dictionary*, 11th edition, unless an exception is listed below. Please note that certain academic fields use specialized spellings; you may defer to the author and/or their sources in those cases, as long as the spellings are used consistently.

CAA Full Caption Style Guide

Caption Formatting

*The Art Bulletin (AB), Art Journal (AJ), and Art Journal Open (AJO)* include full caption information, when available/appropriate, in the following order. *(caa.reviews generally only features book covers or exhibition installation views.)*

- Figure number, in consecutive order, with no period (AB only)
- Artist
- *Title* (in italics)
- Date (numerals are OK for centuries, to save space)
- medium (on support, if applicable)
- dimensions (if applicable; if dimensions vary, write “dimensions variable”). Provide in inches or feet – h x w x d in. – followed by centimeters or meters in parentheses – (h x w x d cm). Note that 1 inch = 2.54 cm. If converting cm to inches, if the result is not a whole number, please express in fractions, not decimals, using the following chart:

  - .1 = 1/8
  - .2 = 1/4
  - .3 = 3/8
  - .4 = 3/8 (use this in converting to metric)
  - .5 = 1/2
  - .6 = 5/8
  - .7 = 5/8 (use this in converting to metric)
  - .8 = 3/4
  - .9 = 7/8

- When working in a manuscript, set fractions in text with a slash between the numerator and denominator: 1/2, 1/4, etc. When proofreading in layout, make sure fractions are stacked and closed up: 3½.
- Name of collection (if applicable); don’t include “The” before institution name
- City of collection (if applicable); states are abbreviated
- Other collection information, such as “gift of . . . ,” accession number (only include if author does), etc. (if applicable)
- (Copyright or credit-line information regarding both the artwork and the photograph, in parentheses.) First provide the artwork copyright, if applicable, generally followed by a semicolon and then the image copyright and/or provision credit (or notice that author is invoking fair use). Can include “The” if institution requires it.

In AB, only the **figure number** is bolded. In AJ, there is no figure number; please bold the **artist’s name, title, and date** only (and do not bold any punctuation following the date).

2 Saint Francis, Rethymnon, detail of vault corbel and rib springer in the north lateral chapel, 1530s–20s (photograph by the author)

- Note: Here the date follows what the detail shows (rather than the place name of the church, as would usually be done) because different parts of the structure date from several different time periods.

3 William Van Alen, Chrysler Building, completed 1930, New York
Book illustrations:

1 Étienne-Jules Marey, path of the different joints while walking, from *Développement de la méthode graphique par l’emploi de la photographie*, Paris, n.d., 48, fig. 34

2 Pierre Bonnard, *Street Corner*, ca. 1897, from *Quelques aspects de la vie de Paris*, Paris, 1899, (give page or plate number if available) color lithograph, (give dimensions of page or image). Metropolitan Museum of Art, New York, Harris Brisbane Dick Fund, 1928, 28.50.4(3) (artwork in the public domain; photograph all rights reserved, The Metropolitan Museum of Art)

- In general, an artwork reproduced in AB or AJ using a digital scan from a published book should not include the publication information for that book in the caption, but only the collection information and any actual information relating to copyright permission. It is extremely rare for the publisher of a book to own the rights to individual images; an occasional exception to this is a diagram, floor plan, map, or other line drawing in a book. In cases where the reproduction in AB or AJ is of a period book illustration and the publication information about that book is germane to the argument of the essay, as in the above example, publication information about the book may be included in the caption at the author’s discretion. Another instance in which we include publication information is when the artwork is no longer extant and the photograph is the only record of it.

IV. Notes on Notes

In *The Art Bulletin* and *Art Journal Open*, endnotes are used. *Art Journal* uses footnotes. *(caa.reviews* does not use either endnotes or footnotes.)*

CAA follows *Chicago Manual of Style*’s rules for formatting note citations (please refer to CMS chapter 14). CAA does still use “ibid.” to refer to a single work cited in the note immediately preceding. A few typical samples are given below, though it is recommended that you consult recent issues of *The Art Bulletin* and *Art Journal* for further examples.

Please separate multiple sources cited within one note with semicolons, and include “and” before the final citation in the series.

When proofreading, please watch line breaks in URLs. Per CMS 14.18:

> In a printed work, if a URL has to be broken at the end of a line, the break should be made *after* a colon or a double slash (/); *before* a single slash (/), a tilde (~), a period, a comma, a hyphen, an underline (_), a question mark, a number sign, or a percent symbol; or *before or after* an equals sign or an ampersand. Such breaks help to signal that the URL has been carried over to the next line. A hyphen should never be added to a URL to denote a line break, nor should a hyphen that is part of a URL appear at the end of a line. If a particularly long element must be broken to avoid a seriously loose or tight line, it can be broken between words or syllables according to the guidelines for word division offered in CMS 7.36–47.
